抗N6-methyladenosine抗体

Anti-N6-methyladenosine (m6A

货号：RB9A37014984

产品描述

中文名称

Anti-N6-methyladenosine (m6A) 抗体 (RB9A37014984)

英文名称

Anti-N6-methyladenosine (m6A) antibody [Mouse]

别名

N6-methyladenosine m6A

靶点符号

N6-methyladenosine

产品类型

一抗

关键信息

宿主种属

Mouse

克隆

Monoclonal

亚型

IgG1

轻链类型

kappa

不含载体蛋白

No

应用

Northwestern SB IP

特异性

This antibody recognises N6-methyladenosine in both modified RNA and DNA.

浓度

1 mg/mL

反应性数据

应用	应用代码	物种	验证状态	备注
Immunoprecipitation	IP	Modified Nucleic Acid	已验证	Best results are obtained by pre-binding the antibody to the beads before washing off unbound immunoglobulin. It is recommended to start with an excess of antibody in order to ensure the Protein G beads are saturated.Used 3μg in 500μl for IP which yielded positive results.
Northwestern blot	Northwestern	Modified Nucleic Acid	已验证	-
Southern Blot	SB	Modified Nucleic Acid	已验证	-

储存与纯化

形式
Liquid

纯化工艺
Affinity purification Protein A

存储溶液
Preservative: 0.02% Sodium azide
Constituents: PBS

推荐的短期储存时间
1-2 weeks

储存信息
Avoid freeze / thaw cycle

本产品仅供科研使用，不用于临床诊断。
