抗载脂蛋白A-I抗体

Anti-Apolipoprotein A I antibody [Goat]

货号：RB9A37057995

产品描述

中文名称
Anti-Apolipoprotein A I 抗体（RB9A37057995）

英文名称
Anti-Apolipoprotein A I antibody [Goat]

别名
Apolipoprotein A-I　Apo-AI　ApoA-I　Apolipoprotein A1　Apoa1

靶点符号
Apoa1

产品类型
一抗

关键信息

宿主种属
Goat

克隆
Polyclonal

亚型
IgG

不含载体蛋白
No

反应种属
Mouse

应用
IHC-P　ELISA　WB　sELISA　IP

免疫原
Native Full Length Protein corresponding to Mouse Apoa1.; Q00623

特异性
Typically less than 1% cross-reactivity against other types of apoLipoprotein was detected by ELISA against purified standards. This antibody reacts with mouse apoLipoprotein A-I and has negligible cross-reactivity with Type A-II, B, C-I, C-II, C-III, E and J apoLipoproteins. Specific cross-reaction of anti-apoLipoprotein antibodies with antigens from other species has not been determined. Non-specific cross-reaction of anti-apoLipoprotein antibodies with other mouse serum proteins is negligible.

反应性数据

应用	应用代码	物种	验证状态
ELISA	ELISA	Mouse	保证反应
Immunohistochemistry (Formalin/PFA-fixed paraffin-embedded sections)	IHCP	Mouse	保证反应
Immunoprecipitation	IP	Mouse	保证反应
Western blot	WB	Mouse	保证反应
Sandwich ELISA	sELISA	Mouse	保证反应

储存与纯化

形式
Liquid

纯化工艺
Affinity purification Immunogen

纯化说明
This product has been prepared by immunoaffinity chromatography using immobilized antigens followed by extensive cross-adsorption against other apoLipoproteins and human serum proteins to remove any unwanted specificities.

存储溶液
Preservative: 0.01% Sodium azide
Constituents: 4.77% Sodium borate, 0.44% Sodium chloride, 0.15% EDTA

推荐的短期储存时间
1-2 weeks

储存信息
Avoid freeze / thaw cycle

本产品仅供科研使用，不用于临床诊断。
