Sepharose Anti-GFP antibody

Seph

货号：RB9A37057112

产品描述

中文名称
Sepharose Anti-GFP抗体

英文名称
Sepharose Anti-GFP antibody

别名
Green fluorescent protein GFP

靶点符号
GFP

产品类型
一抗

关键信息

宿主种属
Rabbit

克隆
Polyclonal

亚型
IgG

偶联物
Sepharose

不含载体蛋白
No

应用
IP

免疫原
Recombinant Full Length Protein corresponding to Aequorea victoria GFP.; P42212

特异性
This product is a suspension of affinity purified anti-GFP antibody (RB9A37056747)) covalently linked to sepharose beads. It is reactive against all variants of Aequorea victoria GFP such as S65T-GFP, RS-GFP, YFP, CFP, RFP, and EGFP. The unit sold contains 25μg of affinity purified rabbit anti-GFP IgG cross-linked to 125 μl sepharose beads in a total volume of 250 μl buffer. The product is supplied as a 50% slurry to facilitate pipetting. Pipetting the slurry is facilitated when pipet tips are blunted by cutting 3-5mm off from the tip.

浓度

0.1 mg/mL

反应性数据

应用	应用代码	物种	验证状态	备注
Immunoprecipitation	IP	Tag	已验证	We rountinely recommend using 20 µL of slurry per IP, which corresponds to 2 µg of IgG cross-linked to beads. this results in a clearly visible 10 µL bead pellet upon centrifugation. Unconjugated version: RB9A37056747 . FITC conjugated version: . Biotin conjugated version: .

储存与纯化

形式

Liquid

纯化工艺

Affinity purification Immunogen

纯化说明

This antibody is an affinity purified rabbit anti-GFP antibody purified on an affinity chromatography column made with highly purified recombinant GFP.

存储溶液

Preservative: 0.05% Sodium azide
Constituents: PBS

储存信息

Do Not Freeze
