斑马鱼后肠杯状细胞抗体

Anti-Zebrafish Posterior Intestinal Goblet Cells antibody

货号：RB9A37057409

产品描述

中文名称
Anti-Zebrafish Posterior Intestinal Goblet Cells 抗体

英文名称
Anti-Zebrafish Posterior Intestinal Goblet Cells antibody

靶点符号
Zebrafish

产品类型
一抗

关键信息

宿主种属
Mouse

克隆
Monoclonal

亚型
IgG1

不含载体蛋白
No

反应种属
Zebrafish

应用
ICC/IF WB

免疫原
The exact immunogen used to generate this antibody is proprietary information.

特异性
The transparency of the juvenile zebrafish and its genetic advantages make it an attractive model for the study of intestinal differentiation and renewal. Antibody marks goblet cells specifically. It labels both the mucus compartment and other parts of the cytoplasm. On Western blots, stains diffuse bands, consistent with variably glycosylated antigen(s). labelled cells are concentrated in the posterior gut. is a marker for mucus secreting cells in the posterior gut of zebrafish.

浓度
1 mg/mL

反应性数据

应用	应用代码	物种	验证状态
Immunocytochemistry/ Immunofluorescence	ICCIF	Zebrafish	保证反应
Western blot	WB	Zebrafish	保证反应

储存与纯化

形式

Liquid

纯化工艺

Affinity purification Protein A

存储溶液

Preservative: 0.02% Sodium azide

Constituents: PBS

储存信息

Avoid freeze / thaw cycle

本产品仅供科研使用，不用于临床诊断。
