反应性数据

应用	应用代码	物种	验证状态	推荐稀释	备注
Western blot	WB	Human	已验证	1/10000	Since intracellular levels of pS294 ER are very low, Western blot without prior immunoprecipitation of total ER is not sensitive enough to detect pS294 ER. We recommend initial ER immunoprecipitation, following which it is possible to use this antibody for Western blot (see data image).
