特异性
Based on internal testing in Dot blot, this antibody cross reacts with hnRNP A0 (citrulline R81/85) and hnRNP A2B1 (citrulline R95/99). The immunogen used for this product shares 100% homology with hnRNP A1-like 2. Cross-reactivity with this protein has not been confirmed experimentally.Treatment is required for detection of the target protein. See Protocol section for detailed information.
