特异性
Theoretically, this antibody should recognize p55/54, p43/41 and p18. However, in our internal tests on parent antibody RB9A37000673, it only recognized pro caspase 8. We tested it side by side with RB9A37052877. Both antibodies are KO validated, and RB9A37052877 recognizes pro-caspase 8 and cleavage caspase 8.
