肌球蛋白抗体

Anti-Myosin antibody [Mouse]

货号：RB9A37058529

产品描述

中文名称
Anti-Myosin抗体

英文名称
Anti-Myosin antibody [Mouse]

别名
Myosin-1 Myosin heavy chain 1 Myosin heavy chain 2x Myosin heavy chain IIx/d MyHC-2x MyHC-IIx/d MYH1

靶点符号
MYH1

产品类型
一抗

关键信息

宿主种属
Mouse

克隆
Monoclonal

亚型
IgM

轻链类型
unknown

不含载体蛋白
No

反应种属
Chicken

应用
ICC WB IHC-P IHC-Fr

特异性
This monoclonal antibody reacts in immunoblots specific with myosin and is specific to the 75kD of Myosin. Does not react with alpha-cardiac myosin. Does not react with the light-chain but with the last 75 kD of the myosin molecule. These 75 kD are located on a myosin-common site-chain.

反应性数据

应用	应用代码	物种	验证状态	备注
Immunocytochemistry	ICC	Chicken	保证反应	-
Immunohistochemistry (Frozen sections)	IHCFr	Chicken	保证反应	-
Immunohistochemistry (Formalin/PFA-fixed paraffin-embedded sections)	IHCP	Chicken	保证反应	Use at 1/5 - 1/10.(Only with microwave oven pretreatment. Based on the Indirect method, with a normal ABC method the dilution can be 5-10 times higher). Dilute immediately before use with PBS or Tris.
Western blot	WB	Chicken	保证反应	-

储存与纯化

形式
Liquid

存储溶液
pH: 7.3 Preservative: 0.1% Sodium azide Constituents: 1% BSA

推荐的短期储存时间
1-2 weeks

纯度
Tissue culture supernatant

本产品仅供科研使用，不用于临床诊断。
