Imalumab ELISA试剂盒(靶标：)

Imalumab ELISA Kit

货号：RB9T37014662

在您使用本产品前请认真阅读说明书，这对您顺利完成实验很有帮助。

产品编码
RB9T37014662

中文名称
Imalumab ELISA试剂盒(靶标：)

英文名称
Imalumab ELISA Kit

应用
ELISA

登录号
P14174

检测方法
Colorimetric

灵敏度
0.156 μg/ml

检测范围
0.31-5 μg/mL

回收率
80-120%

样本类型
Plasma, Serum

检测类型

Quantitative

背景信息

Imalumab (as known as Bax69) is a novel recombinant, fully-human, monoclonal antibody (mAb) which was designed and developed to target the macrophage migration inhibitory factor, with potential immunomodulating, anti-inflammatory and antineoplastic activities. This drug was developed by Cytokine Pharma Sciences and Baxalta, which was purchased by Shire Pharmaceuticals. Phase I studies were completed in early 2016 and as of January 2017 it is being tested in Phase IIa clinical trials for metastatic colorectal cancer. However, it is disappointing that there are no breakthrough and exciting clinical trial results for this monoclonal antibody. For example, a phase I/II trial in patients with malignant ascites was terminated in 2016 and Baxalta terminated a phase II trial in Colorectal cancer (Combination therapy, Second-line therapy or greater, Metastatic disease) in USA, Spain on 02 Jun 2017.

稳定性和储存

The stability of ELISA kit is determined by the loss rate of activity. The loss rate of this kit is less than 10% prior to the expiration date under appropriate storage condition.

运输条件

2-8 ℃

For Research Use Only.
